

Chris Schupp  
Executive Managing Director

“The Better Business Bureau was occupying space in a property that was under financial duress and we had the opportunity of selecting from a large number of real estate professionals offering their services. After narrowing the list to a half dozen companies, our team was impressed with the expertise that Chris Schupp of NAI Robert Lynn brought to our organization. Notably he was always available, always professional, and always suggesting solutions to the unforeseen challenges that inevitably occur. Above all, he was always on top of the smallest details that make the difference between a good deal and a wise investment decision. Relocation makes managers invest their time, their money and their professional integrity. We feel we made a wise investment in Chris and NAI Robert Lynn.”
